Tehachapi, California

**AGENDA**

- Introductions; Meeting Overview
- GAMA Program Overview:  
State Water Board
- Study Unit Assessment Review:  
US Geological Survey
- Wrap-up and Adjourn

**Background:** The Southern Sierra study unit includes the Tehachapi, Cummings and Kern River Valleys. The GAMA Program was created as a result of groundwater quality concerns by its citizens and leaders. The main objectives of the GAMA Program are to improve statewide ambient groundwater quality monitoring and assessment and to increase the availability of information about groundwater quality to the public. Stewardship of the state's groundwater resources is the shared responsibility of all levels of the government and community. Participation in the GAMA Program is voluntary.

**Directions:**

See next page for map.
